

2022 Conference – Oregon and Washington State Spotlight Showcase

The 2022 Conference Planning Committees are pleased to announce that this year's conference will include a "practice spotlight showcase."

The showcase will be a place for Oregon and Washington State Academy members to share new and/or exciting ventures, work or volunteer projects in the field of nutrition and food management, or recent research projects.

Topics for the practice showcase are endless (professionals in private practice, RDs/RDNs working on new ventures, undergraduate or graduate student projects, volunteer projects, innovations at your work site, nutrition related community events or other interesting and educational activities you would like to share).

We are looking forward to this opportunity for RDs/RDNs to share food and nutrition related activities, information, and projects!

Benefits of a Spotlight Presentation at the Annual Meeting

The Spotlight Presentation is a way to share your program or work practice with your colleagues. You can help to enhance practice and professional knowledge. There are many benefits that come with a spotlight presentation:

- It demonstrates your initiative & commitment to dietetics practice.
- Your presentation adds CPEU hours to educational sessions.
- Presentations that deal with unique practice settings or programs provide mentoring to students and professionals about employment opportunities.
- Presenting gives you the opportunity to enhance your written & oral communication skills.
- Presenting is a valuable addition to your curriculum vitae or resume.
- By participating in the spotlight session and attending the Washington State and Oregon Academy joint Education Conference, you are afforded networking opportunities with other students and dietetic professionals at your poster session and throughout the meeting.
